

Matthew I. Swindall | AI/ML Researcher

Email: mis2n@mtmail.mtsu.edu

Website: <https://mis2n.github.io/>

Github: <https://github.com/mis2n>

Professional Profile

Accomplished AI and Machine Learning researcher with a background in physics and astronomy. My research focuses on interdisciplinary applications of AI and Machine Learning that bridge the gap between state-of-the-art technology and ancient literary texts, specifically for the field of papyrology. A primary focus of my research is the development of image datasets for machine learning through crowdsourcing, and the application of deep learning models to such datasets. My work includes the creation of a dataset containing over 400,000 individual characters images from ancient Greek manuscripts utilizing crowdsourced annotations. I have been published and presented at international conferences and journals and am seeking to broaden my research experience in a research position.

Skills

- | | | |
|-------------------------|------------------------------|-----------------------|
| • Deep Learning | • Machine Learning | • Neural Networks |
| • Tensorflow, Keras | • Python, C, C++, SQL | • Unix/Linux, Bash |
| • Computer Vision | • Cloud Computing (GCP, AWS) | • Cluster Computing |
| • Parallel Processing | • Advanced Calculus | • Linear Algebra |
| • Statistics | • Physics | • Astronomy |
| • Chemistry | • Micro-Controllers | • Micro-Computers |
| • Angular | • Robotics | • STEM Education |
| • Blockchain (Ethereum) | • Smart Contracts (Solidity) | • Angular, Flask |
| • HTML, CSS, PHP | • Javascript, Typescript | • Git, Github, Docker |

Education

- | | |
|---|-----------------------------------|
| ➤ PhD in Computational & Data Science | Middle Tennessee State University |
| ➤ Master of Science in Computer Science | Middle Tennessee State University |
| ➤ Bachelor of Science in Physics | Middle Tennessee State University |
| ➤ Associate of Science in Physics | Columbia State Community College |

Publications

Conference & Seminar Presentations

- **"Generative AI and Higher Education"**. John F. Wallin, Matthew I. Swindall, Isaac Shirk. Middle Tennessee State University AI Initiative Research Conference. Murfreesboro, TN. November 10, 2023.
- **"Understanding Ancient Manuscripts Using Crowdsourcing and Data Science"**. Matthew I. Swindall, Graham West, James H. Brusuelas, John F. Wallin. AWS Human-in-the-Loop Science Summer Seminar Series. Presented virtually. August 17, 2023.
- **"A.I.-Assisted Papyrology: Integrating Deep Learning into the Scholarly Workflow"**. Matthew I. Swindall, Graham West, James H. Brusuelas, John F. Wallin. Alpha, Aleph, and AI: Languages of the Ancient Mediterranean and Near East Conference. Bristol, United Kingdom. June 14, 2023.

- **“Crowdsourcing Image Datasets: An Examination of Ground-Truth in Labeling, Text Segmentation, & Sampling Bias”**. Matthew Swindall. In the Tenth AAAI Conference on Human Computation and Crowdsourcing Doctoral Consortium, November 6, 2022.
- **“Crowd-sourced Datasets and Deep Learning”**. John F. Wallin, Matthew I. Swindall, Graham West, James H. Brusuelas. American Mathematical Society, Special Session on Methods and Applications in Data Science – El Paso, Texas September 17, 2022.
- **“Dataset Augmentation in Papyrology with Generative Models: A Study of Synthetic Ancient Greek Character Images”**. Matthew I. Swindall. Middle Tennessee State University Scholars Day. Murfreesboro, TN. March 22, 2022.

Conference Articles with Presentations

- **“Dataset Augmentation in Papyrology with Generative Models: A Study of Synthetic Ancient Greek Character Images”**. Matthew Swindall, Timothy Player, Ben Keener, Alex C. Williams, James H. Brusuelas, Federica Nicolardi, Marzia D’Angelo, Claudio Vergara, Michael McOsker, John F. Wallin. In 2022 Proceedings of the Thirty-First International Joint Conference on Artificial Intelligence, pages 4948-4954. IJCAI. Vienna, Austria. July 28, 2022.
- **“Exploring learning approaches for ancient Greek character recognition with citizen science data”**. Matthew I. Swindall, Gregory Croisdale, Chase C. Hunter, Ben Keener, Alex C. Williams, James H. Brusuelas, Nita Krevans, Melissa Sellew, Lucy Fortson, and John F. Wallin. In 2021 17th International Conference on eScience (eScience), pages 128– 137. IEEE. Innsbruck, Austria (virtual). September 22, 2021.

Peer-Reviewed Journal Articles

- **“Incorporating Crowdsourced Annotator Distributions into Ensemble Modeling to Improve Classification Trustworthiness for Ancient Greek Papyri”**. Graham West, Matthew Swindall, Ben Keener, Timothy Player, Alex C. Williams, James H. Brusuelas, John F. Wallin. In Historical Documents and automatic text recognition, Journal of Data Mining & Digital Humanities (JDMDH), 2023

Internships & Honors

- ❖ La Serena School for Data Science Class of 2021 - NFS and CMM/UCHile funded Data Science for Astronomy Program in partnership with NOIRLab/AURA-O.
- ❖ MTeach Summer Internship 2016 – STEM teaching internship in partnership with the Discovery Center at Murfree Spring.

Employment

2019 – Present

Middle Tennessee State University

Graduate Assistant

Manage various computational projects. Project components include deep learning models, Optical Character Recognition (OCR) and computer vision, semantic segmentation, microcontrollers (Arduino), microcomputers (Raspberry Pi, Jetson Nano), electrical circuits, robotics, coding, object detection/recognition, 3D printing, laser etching/cutting, and augmented/virtual reality.

Key Responsibilities

- Design & Prototype STEM demonstrations and institutional hardware/software tools
- Equipment, inventory, and network maintenance
- Equipment training and technology coaching
- Guide students in project-based learning
- Curation of exhibits

Key Achievements

- Designed & curated numerous STEM exhibits including a Lego block sorting robot, a Bluetooth enabled LED text sign with Android app, and a real-time object detection/segmentation exhibit.

2015 – 2016**Middle Tennessee State University****Physics & Astronomy Tutor**

Tutored students in departmental courses.

Key Responsibilities

- Tutored Physics Students
- Tutored Astronomy Students
- Assisted other departments

Key Achievements

- Tutored numerous students in my expertise areas, as well as advanced mathematics, chemistry, and engineering.

2006 – 2013**First Tennessee Bank****Teller III**

Award winning bank teller and trainer with extensive branch operations experience.

Key Responsibilities

- AML/BSA Compliance
- Staff training
- Foreign Exchange
- Vault & ATM control and maintenance
- Account Management
- Branch auditing

Key Achievements

- Numerous awards including the FTB Presidents Award
- Managed Operations of a single-person satellite branch in addition to main-branch duties.
