Professional Profile

Accomplished graduate student in the Computational and Data Science PhD program at Middle Tennessee State University. My studies include advanced mathematical methods, physical sciences, and computational science. My Research is focused on crowdsourced image datasets for deep learning applications utilizing convolution-based neural network architectures and residual networks. My work includes the creation of a dataset containing over 400,000 individual characters images from ancient Greek manuscripts utilizing crowdsourced annotations.

Core Skills

- Deep Learning
- Tensorflow & Keras
- Computer Vision
- Parallel Processing
- Statistics
- Chemistry
- Circuitry

- Machine Learning
- Python, C++, Javascript, SQL
- Cloud Computing (GCP, AWS)
- Advanced Calculus
- Physics
- Micro-Controllers
- Robotics

- Neural Networks
- Unix/Linux, Bash
- Cluster Computing
- Linear Algebra
- Astronomy
- Micro-Computers
- STEM Education

Education

➢	PhD in Computational & Data Science	Middle Tennessee State University	*2024**
➢	Master of Science in Computer Science	Middle Tennessee State University	*2024**
➢	Bachelor of Science in Physics	Middle Tennessee State University	2016
➢	Associate of Science in Physics	Columbia State Community College	2016

Publications

o **Crowdsourcing Image Datasets: An Examination of Ground-Truth in Labeling, Text Segmentation, & Sampling Bias.** Matthew Swindall. In the Tenth AAAI Conference on Human Computation and Crowdsourcing Doctoral Consortium, 2022

o **Dataset Augmentation in Papyrology with Generative Models: A Study of Synthetic Ancient Greek Character Images**. Matthew Swindall, Timothy Player, Ben Keener, Alex C. Williams, James H. Brusuelas, Federica Nicolardi, Marzia D'Angelo, Claudio Vergara, Michael McOsker, John F. Wallin. In 2022 Proceedings of the Thirty-First International Joint Conference on Artificial Intelligence, pages 4948-4954. IJCAI, 2022.

o **Exploring learning approaches for ancient Greek character recognition with citizen science data.** Matthew I. Swindall, Gregory Croisdale, Chase C. Hunter, Ben Keener, Alex C. Williams,

James H. Brusuelas, Nita Krevans, Melissa Sellew, Lucy Fortson, and John F. Wallin. In 2021 17th International Conference on eScience (eScience), pages 128– 137. IEEE, 2021.

Conferences & Talks

- Alpha, Aleph, and AI: Languages of the Ancient Mediterranean and Near East – Bristol, Uk – "A.I.-Assisted Papyrology: Integrating Deep Learning into the Scholarly Workflow", Matthew Swindall, Graham West, James H. Brusuelas, John F. Wallin, June, 2023
- Tenth AAAI Conference on Human Computation and Crowdsourcing Doctoral Consortium – Held Virtually – "Crowdsourcing Image Datasets: An Examination of Ground-Truth in Labeling, Text Segmentation, & Sampling Bias", Matthew Swindall, November, 2022
- American Mathematical Society, Special Session on Methods and Applications in Data Science – El Paso, Texas – "Crowd-sourced Datasets and Deep Learning", James Brusuelas, Matthew Swindall, John Wallin, Graham West, El Paso, Texas, September, 2022
- International Joint Conference on Artificial Intelligence (IJCAI) 2022 – Vienna, Austria – "Dataset Augmentation in Papyrology with Generative Models: A Study of Synthetic Ancient Greek Character Images"
- IEEE eScience 2021 – Innsbruck, Austria (virtual) – "Exploring Learning Approaches for Ancient Greek Character Recognition with Citizen Science Data"
- MSTU Scholars Day 2022 – Murfreesboro, TN – "Dataset Augmentation in Papyrology with Generative Models: A Study of Synthetic Ancient Greek Character Images"

Internships & Honors

- ❖ MTeach Summer Internship 2016 – STEM teaching internship in partnership with the Discovery Center at Murfree Spring.
- ❖ La Serena School for Data Science Class of 2021 - NFS and CMM/UChile funded Data Science for Astronomy Program in partnership with NOIRLab/AURA-O.

Career Summary

2019 – Present   **Middle Tennessee State University**   **Graduate Assistant**

Design and prototyping of STEM demonstrations in cooperation with the MTSU Makerspace. Project components include micro-controllers/computers, electrical circuits, robotics, coding, computer vision, object recognition, 3D printing, laser etching/cutting, and augmented/virtual reality.

Key Responsibilities

- Design & Prototype STEM demonstrations
- Equipment, inventory, and network maintenance
- Equipment training and technology coaching
- Guide students in project-based learning
- Curation of exhibits

Key Achievements

- Designed & curated numerous STEM exhibits including a Lego block sorting robot, a Bluetooth enabled LED text sign with Android app, and a real-time object detection/segmentation exhibit.

2015 – 2016   **Middle Tennessee State University**   **Physics & Astronomy Tutor**

Tutored students in departmental courses.

Key Responsibilities

- Tutored Physics Students
- Tutored Astronomy Students
- Assisted other departments when necessary

Key Achievements

- Tutored numerous students in my expertise areas, as well as advanced mathematics, chemistry, and engineering.

2006 – 2013   First Tennessee Bank   Teller III

Award winning bank teller and trainer with extensive branch operations experience.

Key Responsibilities

- AML/BSA Compliance
- Staff training
- Foreign Exchange
- Vault & ATM control and maintenance
- Account Management
- Branch auditing

Key Achievements

- Numerous awards including the FTB Presidents Award
- Managed Operations of a single-person satellite branch in addition to main-branch duties.
